

Festive Foods

What is Festive Foods?

Our fun lunch program at Wildwood School is called Festive Foods. This program allows parents to purchase food for their child on specific dates through out the year. It not only provides fun food for the students, but it also serves as a valuable fundraiser for our school.

How Can My Child Participate?

Festive Foods is run on an online system called Healthy Hunger. All lunch orders are posted for Wildwood School and require a parent account to participate. You can sign up on the Healthy Hungry website and register your child.

How Do I Register?

Visit www.HealthyHunger.ca and click on Register Student Account. Fill out the Parent Account Registration and select Create My Account. You will then click Add Student and fill out the required information to add each child that is participating. Once completed, you will have access to all lunches and events that the school posts. Online payment is required.

What If I Already Have an Account?

If you already have an account with Healthy Hunger, simply log in and enter your child's new grade and teacher information. ****This will have to be updated every year in order to use your account.**

What if I Have Questions?

For program information you may call the school or email our Festive Foods Coordinators at StaceyZurburg@shaw.ca. For any account issues please contact the Healthy Hunger team through their website.

*All dates and information will be advertised through the Wildwood School WAG (Week at a Glance). You will also find all available lunches on your Healthy Hunger Account and will receive notifications when new lunches are posted.
